Love Like Me

Billy Strings

You could climb the highest mountain
You could swim the deepest sea
You could walk that lonesome valley
And never find a love like me

All the thorny roses blooming
All the leaves upon the vine
All of nature's fairest treasures
I'll not know 'til you are mine

Darling, if you'll walk beside me
I will be a steady hand
If you need a rock to stand on
Honey, I will be your man

If the sun refused to shine, Dear
And the clouds held back their rain
If the world should turn upon you
Don't forget you know my name

You could climb the highest mountain
You could swim the deepest sea
You could walk that lonesome valley
And never find a love like me
