

# Devil on My Shoulder

Billy Talent

As I get closer, my dreams get farther  
I climb that ladder, but you kick it over  
Thirsty for water, you give me vinegar  
When I drink your medicine, it just makes me sicker

I dug a hole so deep  
I'm gonna drown in my mistakes  
Can't even sell my soul  
'Cause it ain't worth shit to take

I got the devil on my shoulder (over and over)  
And I just can't sink any lower (lower and lower)  
The hounds of hell are getting closer (closer and closer)  
I got the devil on my shoulder (over and over)

Follow the rainbow, my lucky omen  
There ain't no pot of gold, just copper tokens  
I found the key to life, the lock was broken  
All my accomplishments, are best left unspoken

I dug a hole so deep  
I'm gonna drown in my mistakes  
Can't even sell my soul  
'Cause it ain't worth shit to take

I got the devil on my shoulder (over and over)  
And I just can't sink any lower (lower and lower)  
The hounds of hell are getting closer (closer and closer)  
I got the devil on my shoulder (over and over)

My horror story is nearly over  
I said I'm sorry, but I was sober  
I beg for mercy from my infernal friend  
The one that drops the nails into my coffin

I got the devil on my shoulder  
I got the devil on my shoulder

I got the devil on my shoulder (over and over)  
And I just can't sink any lower (lower and lower)  
They come to take me, take me over (closer and closer)  
I got the devil on my shoulder (over and over)
