

Leopards

Billy Woods

Gifted, but I ain't give him jack
Turned Jehovah's Witness on Christmas
Hardened grifters give me dap
Unscrewed the plates, left it parked up at Ditmas
Covered in tickets with two flats
You two faced dready I think different
It's more than a few ways to skin cats
Pelts drape, drip dripping, we wore the skulls as a mask
Took the boys to the forest
Shared secret stories and cut 'em fast
It takes blood to be a man
Blood in, blood on your hands
Blood on the leaves, blood trails where they ran
The gang's all here even if it ain't a gang
The cook pot bubble with fam pain [?]
Bitter grains, the big man ate, but they could barely breathe
Ashy Louis the Fourteenth, crocodiles and snakes
At the masquerade, showing teeth
Masticate, make no mistake, you in the mouth of the beast

The savage in me, I can't stop
Y'all made me this way
I'm too far gone to turn back now
Ain't a block, nigga, I can't rock
Streets raised me this way
You know the vibe nigga, I can't stop
I said the savage in me, I can't stop
Y'all made me this way
Too far gone to turn back now
Ain't a block, nigga, I can't rock
Streets raised me this way
You know the vibe nigga, I can't, I can't stop

Hop out the hearse with the light feet, hyphy
I drove in solo, scroll of the night breed, die free
I dry my mobile, let me hold something in kind please
I don't own nothing, no instruction to find peace
Come again, I bust and I was born in Flushing General
Thoughts immaterial, boss what it really do?
Fire dance upon the head of the anointed
I ain't have a choice, out the smoke came the voices
I'm not your boyfriend, vistas, picnics, cloisters
Black fist in moisture
(Speaking of ash, you pack the last)
I should've listened when they told me you wasn't folk no more
Siccing his white lawyers on your boy
Season of the vic, cease and desist, real nigga, I think not
I'm rehearsing for a world where you don't exist
If I'm being plainspoken, k-hole slump
Under my sub slow-motion, doja boy turn token
Just when you think niggas is on the level
Performative rebel rhetoric, but the beat's incredible
Fuck it, riddle me this, lay it to rest, wait for the hex
I ain't ask for you to talk to me nice
But going silent when shit really ain't right (Nah)
Veteran dishonorable, vaginal discharge comical
Stripe, strip

Attitude don't reflect the actions type bitch
I get my shit off when I wanna
Without centering crack or psychosomatic disorder
Who among us is not among us
In the words of arierre F.P.A.R I'm seeing clearer
