

BLINDSIDED

Bilmuri

Could you tell me everything?
Make it clear when you forgot that ring
Did it weigh down on your hand?
You could never make me understand

Why you left me alone
Kept me to cold
Guess I just have some questions

Was it ever even real or did your heart get colder?
Did I ever make you feel when your head was on my shoulder?
Were you always a liar?
Breaking your back just to hide it
Then you, then you left me blindsided

I'm not saying I was perfect
Why do I deserve this?
Going through the moments in my head

Was it ever even real or did your heart get colder?
Did I ever make you feel when your head was on my shoulder?
Were you always a liar?
Breaking your back just to hide it
Then you, then you left me blindsided
(Blindsided)

Yeah, you left without a word
Just to make it hurt
Do you really like when you twist the knife?
Fake a smile but shit was never real

And you couldn't get colder
Did I ever make you feel when your head was on my shoulder?
Were you always a liar?
Breaking your back just to hide it
Then you, then you left me blindsided
(Blindsided)
