

## Brain Lock

Bilmuri

Well, logic is fucking dead

I think it may have been my head  
Going around because it never stops  
Stabbing my mind and taking cheap shots  
Controlled by some things that are never real  
And these, these stupid chemicals that make me feel

Brain lock, it won't fucking stop  
Brain lock, it won't fucking stop

Wish I could get up out of all of it  
'Cause my mind tells my brain it's bullshit  
Gears in my head, yeah they just won't shift  
But I know I'll find my way around this

Brain lock, it won't fucking stop  
Brain lock, it won't fucking stop

Make it stop, make it fucking stop  
Make it stop, make it fucking stop
