

## Down

Bilmuri

I can't breathe

I can't get enough  
I need another one  
I can't get enough  
I can't get enough  
I need another one  
So I burn this hole into my lungs

Why do I need what kills me?  
Why do I need what I don't need?  
Why do I need what kills me?  
I can't get enough, I can't get enough

I inhale this smoke, feel the pain in my lungs  
Gasping for air, I keep gasping for air  
I can't stop, I can't fucking stop  
I can't stop, I can't get enough

Why do I need what kills me?  
Why do I need what I don't need?  
Why do I need what kills me?  
I can't get enough, I can't get enough
