

Is okay to cry
Let it out sometimes
You can stay in my arms if you'll like
Turn the world in my arms

So rest your head on me
I'll hold your heavy heart
So you will always see
I'm never gonna leave
I'm never gonna leave
I'll hold your heavy heart

When you can't hold the weight
(The weight of the sand)
When your anger hangs so low
I'll have your hand in mine
And I won't let you go

So rest your head on me
I'll hold your heavy heart
So you will always see
I'm never gonna leave
I'm never gonna leave
I'll hold your heavy heart
Rest your head on me
I'll hold your heavy heart
So you will always see
I'm never gonna leave
I'm never gonna leave
I'll hold your heavy heart

Uh, the intro was a fucking joke
I repeat it was a joke
One more time, it was a joke
