

KEEPINITBEEFY

Bilmuri

Staring at a flicker
Hope my head is numb
Hold my hand in the dark just to forget I exist sometimes
Sometimes

Could I not hear my footsteps
Take the claws from the dark
I wanna let go for a second
And I wanna know what it's like
To not be afraid

I can get creative
Thinking of all the ways I can break
I look through the glass
And it does nothing
But makes me more afraid

I wanna be free from myself sometimes
And let go
I wanna let go for a second
And I wanna know what it's like
To not be afraid

Could I not hear my footsteps
Take the claws from the dark
I wanna be free from myself sometimes
And let go

I wanna let go for a second
And I wanna know what it's like to not be afraid

I wanna let go for a second
And I wanna know what it's like to not be afraid
