

Light

Bilmuri

Glass and smoke, shifting shadows
Hands like drums searching for battles
I'm face down in the dark
With eyes in broken glass

Cause it's always you
It's always you

I inhale the smoke as you burn through all my veins
With my lungs still warm as you stand right next to me
Cause it's always you

My light falls into your hands
My heart falls into your soul

My mind falls into your hands
My heart falls into your soul

Cause it's always you
It's always you

I inhale the smoke as you burn through all my veins
With my lungs still warm as you stand right next to me
Cause it's always you
