

## Time

Bilmuri

And I think I'm lost  
Drifting away without a cause  
I don't feel like a human being  
Don't know what I still keep needing

Time, just give me time  
To find that happiness was nothing but a lie

Not as bad as I was before  
Won't give my heart away anymore  
I don't feel like a human being  
Don't know why my heart is bleeding

Time, just give me time  
To find that happiness was nothing but a lie  
Time, just give me time  
To find that happiness was just a state of mind

Hide away, self-protect  
Hide away, let my heart rest  
Hide away, self-protect  
Hide away, let my heart rest

Time, just give me time  
To find that happiness was nothing but a lie  
Time, just give me time  
To find that happiness was just a state of mind
