# Wave

**Bilmuri**

I'm lost in the waves
With no direction, pull me away
'Cause I'm lost without a purpose
Searching through the cracks in my own skin

Give me Novocaine
And take away the pain
Just give me Novocaine
Don't wanna feel a thing
Give me Novocaine
And take away the pain
Just give me Novocaine
Don't wanna feel a thing
('Cause I can't take the pain)

Am I alone again tonight?
I did everything just to save my life
I'm so good at shifting the blame on them
I'm so good at playing the victim

Give me Novocaine
And take away the pain
Just give me Novocaine
Don't wanna feel a thing
Give me Novocaine
And take away the pain
Just give me Novocaine
Don't wanna feel a thing
('Cause I can't take the pain)

Pull me away from decaying and replaying what went wrong
Pull me away from saying that these scars aren't half my fault

Give me Novocaine
And take away the pain
Just give me Novocaine
Don't wanna feel a thing
Give me Novocaine
And take away the pain
Just give me Novocaine
Don't wanna feel a thing
