

Here With You

BINI

I saw the line of a thousand other dreams coming true
Nervous faces and heart races
Can I come through?
Used to dance on my own
Thought I was all alone
Then I found your new faces
Now I know where my place is

When the world was telling me, "No"
You pushed my heart to just go
And now for sure, I know

Now here with you, found something new
Through the dark nights, the highlights
You're my lifeline, as we take our flight
Let's paint the sky in different lights
Holding onto all that we could be
Gonna make it bright

Woah, oh, oh, oh, oh-oh
Woah, oh, oh, oh, oh-oh
Woah, oh, oh, oh, oh-oh
Woah, oh, oh, oh, oh-oh

Opened our eyes, to the rain coming down on sunny days
Sacrifices, compromises
Do we like the view?
Would've want to quit the show
But with you, we've got a reason to keep going on this road
Now we know where our place is

When the world was telling me, "No"
You pushed my heart to just go
And now for sure, we know

Now here with you, found something new (Now here with you)
Through the dark nights, the highlights (Woah, ooh, woah, ooh, oh, oh)
You're my lifeline, as we take our flight (You're my lifeline)
Let's paint the sky in different lights
Holding onto all that we could be
Gonna make it bright

And no matter what they say to break us, take our spirits down
We just need to look around

Now here with you (Yeah, yeah)
Found something new (Found something new)
Through the dark nights, the highlights (Ooh, woah)
You're my lifeline, as we take our flight (Ooh, woah)
