

## Boomerang

binki

Surely you couldn't stay home on Saturday  
Four-leaf clovers get plucked and put away  
Try  
Stay under the light  
Worry 'bout the details, gotta live your life  
Damn, I can't believe you were fucking with that guy  
Guess you've got a soft spot that I could never find, right?  
Right?  
I was trying to U-turn, but I ran out of drive  
I was in the room but on the other side

Now it's in the air, now it's in the air  
It was over here, now it's over there  
Now it's in the air, now it's in the air  
Like a boomerang, I was unprepared

I'm not sure how I'm supposed to be now  
Body burns from the settling sun  
What am I really meant to do, huh?  
Get facade from the mentally done  
I'm not sure how I'm supposed to be now  
Looking down from the mezzanine floor  
In the dark, really hard to see out  
Took a shot just so I could breathe more

Now it's in the air, now it's in the air  
It was over here, now it's over there  
Now it's in the air, now it's in the air  
Like a boomerang, I was unprepared

Now it's in the air, now it's in the air  
It was over here, now it's over there  
Now it's in the air, now it's in the air  
Like a boomerang, I was unprepared
