

# Dangerous

binki

Do it again  
So I can take a video  
You wanna stay  
But I take everything  
That comes, so  
I keep on pushing  
I gotta row, and now  
Your body's in motion

You keep on going  
Don't, tell me again  
'Cause, 'cause I already know  
You wanna wait  
But I'm already going cold  
So  
I keep on pushing  
I gotta row, you know  
Body's in motion  
They keep on going

Don't say what you really want  
Don't say what you really need  
I was there but you weren't home  
Now it's dangerous, dangerous  
Don't say what you really want  
I'm afraid you don't wanna see  
I was there but you weren't home  
Now it's dangerous, dangerous

Do it again  
So I can take a video  
Quarter to two  
I think it's time to hit the rug  
After the party  
Now you wanna smoke  
Got a face time for [?]  
Got the [?] in my phone

Do it again  
I think it's out of my control  
Turning into  
I pay attention to the road  
Tell me again  
I miss the metal and the drug  
Now give me [?]  
Put it right under my nose

Right then, right then  
She called me a psycho  
My friend, my friend  
[?], Dr Phil and she's calling my phone  
Like that, like that

Don't say what you really want  
Don't say what you really need  
I was there but you weren't home  
Now it's dangerous, dangerous

Don't say what you really want  
I'm afraid you don't wanna see  
I was there but you weren't home  
Now it's dangerous, dangerous
