

# Freakin

binki

I'm freakin  
Shorty shorty said I don't know when I'm leaving  
Can you hold my head can't control when I'm beeping  
When I'm beeping, when I'm beeping  
Why you gotta go no you always leave me

I'm freakin  
Shorty shorty said I don't know when I'm leaving  
Can you hold my head can't control when I'm beeping  
When I'm beeping, when I'm beeping  
Why you gotta go no you always leave me

Baby's on the sheets again, pressure pressure  
Okay now I feel like myself again, bless up bless up  
I see you alone again, wish you had a OnlyFans  
You should open up again, extra extra

I'm leaking, tell you all of my secrets  
Touching tongues now I'm peeking  
Think I did too much cause I'm counting costs for no reason  
I can't get enough when you throw it back  
Don't put up the act why you always say

I'm freakin  
Shorty shorty said I don't know when I'm leaving  
Can you hold my head can't control when I'm beeping  
When I'm beeping, when I'm beeping  
Why you gotta go no you always leave me

I'm freakin  
Shorty shorty said I don't know when I'm leaving  
Can you hold my head can't control when I'm beeping  
When I'm beeping, when I'm beeping  
Why you gotta go no you always leave me

Here we go again I got broken lips  
Riding shotgun with my tongue in twists  
Tell me what you need while I'm clenching fists  
Going overboard now I'm jumping ship  
Set the scene what's the sitch  
Every other night I get lost in fits  
Tryna be the man but I'm ill-equipped  
I just wanna dance so I plead the fifth

Hit a pose  
I take all the glitter and I pretend that it's gold  
Everybody's talking but not everybody shows  
Maybe don't ask questions if you already know, already know

I'm freakin  
Shorty shorty said I don't know when I'm leaving  
Can you hold my head can't control when I'm beeping  
When I'm beeping, when I'm beeping  
Why you gotta go no you always leave me

I'm freakin  
Shorty shorty said I don't know when I'm leaving

Can you hold my head can't control when I'm beeping  
When I'm beeping, when I'm beeping  
Why you gotta go no you always leave me
