

Give me a minute
I know you with it
Over the moon
My little dipper
Talking in circles
You're so acidic
Wanna erase me
I won't let it

Curveball
Let me hit it
Take, take
But don't give in
Wait, wait
We're all with it
Let's get set and we all get gotten

She was
And I ain't say she wasn't
So I've been secretly in touch but I ain't taking nothing
If you ask me why I'm here
I say

'Cause you're just like me
I say
'Cause you're just like me
I say
'Cause you're just like me
I say
'Cause you're just like me
Just like me
Just like me
I say
'Cause you're just like me
I say
'Cause you're just like me
I say
'Cause you're just like me
Just like me

Whenever I'm alone
I meet you in my mind
You keep me on my toes
My baby for the time
I wonder what to say
It's not important
I feel the same
I wonder where it goes
You asked me if I'm changed
'Cause I seem so focused
Who's to blame?
Baby have a ball
Let's just say we were better off open
I can't complain
Maybe I'm bogus

She was

And I ain't say she wasn't
So I've been secretly in touch but I ain't taking nothing
If you ask me why I'm here
I say

'Cause you're just like me
I say
'Cause you're just like me
I say
'Cause you're just like me
I say
'Cause you're just like me
Just like me

'Cause you're just like me
I say
'Cause you're just like me
I say
'Cause you're just like me
I say
'Cause you're just like me
Just like me
'Cause you're just like me
I say
'Cause you're just like me
I say
'Cause you're just like me
I say
'Cause you're just like me
Just like me
