

Sea Sick

binki

I feel like I'm stable, why I'm always tabled?
I need to be cradled
Tell me I'm amazing, like, even when I'm wasting
Treat me like a patient
I got no ambition, unless I'm feeling lifted
Drifting, drifting
Sunken overboarding, I'm so sick of floating
At least I'm sinking right beside you
See there's no one like you
It's not an obsession
I just need to find you
'Cause

You could be my sunshine even when it's grey
You could be my sunshine even when it's grey
You could be my sunshine even when it's grey
Even when it's grey, even when it's grey
You could be my sunshine even when it's grey
You could be my sunshine even when it's grey
You could be my sunshine even when it's grey
Even when it's grey, even when it's grey

I can't make my mind if I want it
I would dive in but I think I'm losing oxygen
I can't make my mind if I want it
I would dive in but I think I'm losing oxygen
I can't make my mind if I want it
I would dive in but I-I-I-I-I

You feel whatever the degrees in a sauna
You feel like the key to unlocking a safe
You feel like a Fanta, Fanta, yes, I want ya
On everything like Old Bay
And I won't say more sex, absolutely
She dance with sun like a walking movie
Per chance am I talking looney
My mind gets spun think I caught ya cooties
Dark clouds over London town
I been abroad three days, I'm feeling rubbish wow
Loose change and it won't amount
You really change my day, it's a Sunday now

You could be my sunshine even when it's grey
You could be my sunshine even when it's grey
You could be my sunshine even when it's grey
Even when it's grey, even when it's grey
You could be my sunshine even when it's grey
You could be my sunshine even when it's grey
You could be my sunshine even when it's grey
Even when it's grey, even when it's grey

I can't make my mind if I want it
I would dive in but I think I'm losing oxygen
I can't make my mind if I want it
I would dive in but I think I'm losing oxygen
I can't make my mind if I want it
I would dive in but I-I-I-I-I
