

# Forsaken

Biohazard

Let's fuckin' go

I struggle with it everyday  
For peace of mind and strength I pray  
To rise above this misery  
To find the calm in disarray  
There's always something in my way  
There's always something in my way  
It's in my face every step I take  
The beast inside of me, I awake

I can't take no more of this pain  
Forsaken, life in vain  
I can't take no more of this pain  
Forsaken, life in vain

Society says it's wrong to fight  
Keep it inside with all my might  
I do my best to ease the pain  
Keep violent thoughts out of my brain  
How many times can I hold my tongue  
I bite my lip in frustration  
Just how much can one man take  
Before the cracks inside my mind start to break

Can't take no more of this pain  
Forsaken, life in vain  
Can't take no more of this pain  
Life in vain

Life in vain

Screaming  
At the top of my lungs  
Bleeding  
Tears of blood  
Beating  
My bones until they break  
I can't take no more of this pain

I can't take no more of this pain

Step to the rhythm of the Brooklyn beat  
Forsaken, forsaken, forsaken, forsaken

Can't you see the reality  
The things that meant the most to me  
You've beaten down and disagreed  
And wasted all my energy

Forsaken, forsaken, forsaken, forsaken
