

# I Will Overcome

Biohazard

Life is hard, and then you die, is the attitude of some  
But through the hard times, I survived  
I take life, as it comes

No regrets for the way I live, and the things that I have done  
Though I may fail and I may falter  
In the end, I will overcome

Anything that gets in my way, my way  
I say, I will overcome  
Anyone who gets in my face, no way  
I say, I will overcome

I'll never stop, fighting back, the demons in my mind  
I'll never break, and fucking crack  
Or give up, the fight for life

No regrets for the way I live and the things that I have done  
Though I may fail, and I may falter  
In the end, I will overcome

Anything that gets in my way, my way  
I say, I will overcome  
Anyone who gets in my face, no way  
I say, I will overcome  
Anything that gets in my way, my way  
I will overcome

I will overcome  
Anything or anyone in my way  
I will overcome  
I must rise above the ignorance and hate  
I will overcome

I will overcome  
The negative vibes, the hateful words, and the prying eyes  
Nothing you say can hold me down  
You can never hurt me  
Can't stop, won't stop til I'm done, and I will overcome

I will overcome  
I will overcome  
I will overcome
