

## Make My Stand

Biohazard

You want to break me down every fuckin day of your miserable life,  
You try to take away everything, everything from me  
Beaten down by society, torn apart by humanity  
There's no way out of this misery  
I'll fight forever fearlessly  
You can take away the weapon from my hand  
But you can never change who I am  
Make my stand  
Control the money, control the people  
The kind of the wasteland rules  
The power to conquer a dying nation lies in the hands of a fool  
To give your life in the name of a cause only feeds the fire fuel  
As god screams, he moans in regret  
Is vengence so fucking cruel  
I have seen the way you've wrecked my fellow man  
So I gotta fight to save myself  
Make my stand  
The time has come to destroy anyone  
That tries to stop me, my fight has just begun  
Motherfucker you could never ever step to me  
I too will die for what I believe  
Come out of the shadows and show your fucking face  
You half a man  
Step up and face me toe to toe  
Knowledge and power blow for blow  
You're a liar, a coward, a thief and a fool  
Now I make my stand
