

War Inside Me

Biohazard

I tried, so hard
To get this message through to you
I gave, you take
And now it's through
You pushed, too far
And showed just how you truly are
And now, I choose
To make you lose

You started this, war inside me
I'll finish this, war inside me
No innocence, war inside me
There's no defense, war inside me

Create, this hate
Of the fucked-up life you forsake
You blame, so insane
It's all so fake
Release, unleash
The rage of this human beast
Regret, you let
This all break down

You started this, war inside me
I'll finish this, war inside me
No innocence, war inside me
There's no defense, war inside me

War

This battle within myself
I'm reaching out for help
Can't stop what's in my mind
Gotta win this war inside
War inside of me
War inside of me

You started this, war inside me
I'll finish this, war inside me
No innocence, war inside me
There's no defense, war inside me

War

Reached down, within my soul
Ripped out my guts, an empty hole
There's nothing left, for me to break
I've taken all that I can take

War inside of me
War inside of me
War is inside of me
