

Warriors

Biohazard

Warriors
Warriors

Here I stand to face the truth
And wash my fears away
I scream out loud with all my might
I don't know what to say

Rage and anger taking hold
Reason slips away
The time is now to stand and fight
Warriors, come out to play

Warriors
Fight through the pain
Warriors

Intrusive thoughts pervade my mind
And steal my time away
I fight, I try to search for peace
I just can't find a way

With all my heart and all I got
I know I must go on
To face the pain, one on one
Until, this life is gone

Warriors, bring it
In the battle of life, I fight to the death
My body feels heavy, I've got nothing left

Voices inside my head
Telling me I'm better off dead

Chaos this hour
Look inside, feel the power

Voices inside my head
Telling me I'm better off dead

Voices inside my head
Telling me I'm better off dead

Am I dead

Never back down, even when you're beat
Laid out flat on your back in the street
Thinkin' how the fuck you ever gonna get up
And now your whole life is fucked

In the battle of life, I fight to the death
My body feels heavy, I fight to my last breath

Voices inside my head
Telling me I'm better off dead

Voices inside my head

Telling me I'm better off dead

Warriors, come out to play
