

GONE

Bipolar Sunshine

My life's on the go, free
Said I was in, deep
I was ungrateful
I'm not gonna lie

So we ain't got time to take it slow
Almost lost you once and now I know
Gonna hold you down
Gonna hold you close

I don't wanna wake up with you gone
Don't wanna wake up with you gone
Stay awake through the dawn
I don't wanna wake up with you gone, yeah

'Cause nobody can replace you
Fill the space
Nobody can replace
I don't wanna wake up with you gone

Baby, baby, baby, baby it's you, I chose
And everything else, false
I can feel you moving away
I'll do whatever, whatever it takes

So we ain't got time to take it slow
Almost lost you once and now I know
Gonna hold you down
Gonna hold you close

I don't wanna wake up with you gone
Don't wanna wake up with you gone
Stay awake through the dawn
I don't wanna wake up with you gone, yeah

'Cause nobody can replace you
Fill the space
Nobody can replace
I don't wanna wake up with you gone
