

## Enemies Like Me

Birdeatsbaby

Let me lie upon my badside Spat up on the floor Finger broken I  
am backwards Who could ask for more?

Crammed like cattle Kick the habit Murder in the ranks Glory be  
to God above and money in the bank

If it was easy Would you leave me If it was easy You'd leave

I have thought so many times The prophecy was you But if I did  
believe those rhymes We'd only blame the truth It's not as if y  
ou gave me anything I didn't know But if you keep this to yours  
elf I'll keep it for my own

If it was easy Would you leave me If it was easy You'd leave me

Then I wake with the Awful taste in my Mouth has gone 'cause Sh  
e took my face to save herself From enemies like me

Pray to god in heaven that he'll save you from your sins Every  
day I'm losing and you win

I know what they said about you When you were alone Shut my mou  
th now seal it up It's shelter from the stones

I will never deny you Their words become undone For now let me  
drink my trouble and the end will never come

If it was easy Would you leave me If it was easy You'd leave me

Then I wake with the Awful taste in my Mouth has gone 'cause Sh  
e took my face to save herself From enemies like me

Pray to god in heaven that he'll save you from your sins Every  
day I'm losing and you win

Why don't you beg Why don't you beg Why don't you beg Why don't  
you beg

Once, we were happy I know it cos I saw You would say you love  
me And you wrote it on the walls I know that Your reasons Were  
anything But right But I could be forgiving If you'd only oblig  
e me
