Dead round the eyes red rings what a sight there Prone to the thoughts of electric nightmares Soft like a skin yes I grin if I have to You've got to, you've got to go

Swim little fish get away from the lobsters Quick here they come they're relentless monsters Drown if you have to, don't share the secret Don't share it, don't share it

Rich men walk through the eye of a needle Poor men limp on a dog that's feeble I know a path that is quick and evil Now I've got to Flog That Horse

Never comes a day so quickly when you're not paying attention Never comes a day so quickly when you never leave the lights on Never comes a day so quickly when you're not paying attention Never comes a day so quickly when you never leave the lights on The lights on the lights on

My left hand is a whip and a bandage Free to choose where the mark or brand is Each one knows how to hide in the carnage They're hiding, they're hiding

Time's running out for the rats in the playground Cut straight down like a thief in a small town Shots rack em up, pin a tail on the donkey You've got a lot to answer for

Crawl on your knees like a bitch we can see you Cut through the trees with your claws and your tutu Quick drag me back through the dirt that I came from God please let me flog that horse

Never comes a day so quickly when you're not paying attention Never comes a day so quickly when you never leave the lights on Never comes a day so quickly when you're not paying attention Never comes a day so quickly when you never leave the lights on The lights on the lights on

Don't play games with the ones who can buy you Don't play games with ones you can lie to Life seems strange when there's no one to cry to You're crying, you're crying

Watch in the sky for the wrath of your captor You'll fall flat if you run any faster Don't look back for the fear of their laughter They're laughing, they're laughing

Crawl on your knees like a bitch we can see you Cut through the trees with your claws and your tutu Quick drag me back through the dirt that I came from God please let me flog that horse!
