## Lanterns

## **Birds of Tokyo**

Lately I've found When I start to think aloud There's a longing in the sound There is more I could be In darkness I leave For a place I've never seen It's been calling out to me That is where I should be

We never carried days on our own But now it's up to us to know The weight of being so much more We will find ourselves on the road

On we march With a midnight song We will light our way With our lanterns on On we march Till we meet the dawn We will light our way With our lanterns on

As we walk out Without question, without doubt In the light that we have found It is finally clear Our day has come And we'll stand for who we are We are ready, we are young We have nothing to fear

We never carried days on our own But now it's up to us to know The weight of being so much more We will find ourselves on the road

On we march With a midnight song We will light our way With our lanterns on On we march Till we meet the dawn We will light our way With our lanterns on

We held the light To our faces And realised We were chasing Shadows behind Not worth saving So burn it bright Forever illuminating

On we march With a midnight song We will light our way With our lanterns on On we march Till we meet the dawn We will light our way With our lanterns on [x2]

In darkness I leave For a place I've never seen It's been calling out to me That is where I should be
