Liquid Arms

Birds of Tokyo

We are paired
Like two limbs
Not perfect
Not in sync
I reach out into nothing

My voice evaporates
And leaves me
But I don't care
Cos I know
You're speechless too

The effect has taken on Our senses all shut off I surrender to liquid arms In the ether Answers found

And I don't want to leave Or lose this peace And I know who we are And where we belong

I don't want to leave this peace I don't want to leave this peace [x2]

Please don't wake up
