

## Pilot

## Birds of Tokyo

If I had to drown myself  
in gasoline  
would you carry the match for me?

If I had to kill them all  
to purify  
would you bury the dead with me?

Strange how it feels, to fly alone  
when the pilot's down  
Close to the end, we won't atone  
when the pilot's down

If I let the fever grow  
and sicken you  
would you spread the disease with me?

Sabotage the only cure  
to keep us pure  
and infect everyone we see

Strange how it feels, to fly alone  
when the pilot's down  
Close to the end, we won't atone  
When the pilot's down

Watching it all come apart  
So we can begin, to be new again  
Taking a blade to the heart  
So we can begin, to be new again  
To be new again [x4]

How does it feel, the corves are set  
death is in the net  
Follow my lead, prepare yourself  
for what is next

If I had the key to all  
that's nuclear  
would you turn on the switch with me?

With poison in the atmosphere,  
would you stay down here  
on the ground for a thousand years?

Watching it all come apart  
So we can begin to be new again  
Taking a blade to the heart  
So we can begin to be new again  
[x2]  
To be new again [x8]
