

Creatures

Birdtalker

We could say the things we always do
But they ain't chewin' like they used to
So what if we tried kissin' that goodbye
And livin' like the creatures do

I wanna take you in like a view
Don't wanna say a word, like a fool
There's not a single thing I wanna do
Just wanna be alive, just wanna pass the time
'Cause baby I'm a thread and you're the spool
I'm a hot summer kid and you're the pool
World is gonna fray and we are too
But if it's going down, I'm going down with you

Here, I found a stone, this one's for you
I'm reading me a poem, wanna read it too?
I can never really say what I want to you
So I think I'll give it up, I think this is enough

'Wanna take you in like a view
Don't wanna say a word, like a fool
There's not a single thing I wanna do
Just wanna be alive, just wanna pass the time with you
'Cause baby I'm a thread and you're the spool
I'm a hot summer kid and you're the pool
World is gonna fray and we are too
But if it's going down, I'm going down with you

'Cause baby I'm a thread and you're the spool
I'm a hot summer kid and you're the pool
World is gonna fray and we are too
But if it's going down, if it's goin' down
I'm going down with you
