

## Just This

Birdtalker

My body holds your heart  
And in yours, you hold mine  
Too many days we've been apart  
Yeah I've been gone for too long

Baby, I've been lost all up in my head  
Lost in the past, and what's next  
Keeping me from loving how I know best  
From a place of presence  
Remember when we parked in your mother's car  
On the bridge over the river  
Lost inside a moment now the moment's lost  
Coming back to just this

Listen to the sound of my beating heart  
Living in your chest  
Let it take you back to the start  
Where we were was enough  
Take a closer look at our ego other  
I know I'll find us hiding  
Baby, I know we can rediscover  
We're coming back to just this

Too many days we've been apart  
Yeah I've been gone for too long  
Lost inside a moment now the moment's gone  
Coming back to just this  
Baby, I know we can rediscover  
Coming back to just this  
Coming back to just this  
Coming back to just this
