

# Light On

Birdtalker

I see your face when the music fades  
I see you reaching for those endless summer days  
In the dead of winter when the world is solid shapes  
Longing for the lightness of the white wing dove

What keeps your light on  
Teach me the song that sings you home  
What keeps your dreams drawn  
Across your eyes when you're alone  
My friend I wanna feed ya  
The tangerine sunset  
What keeps your light on

Pull me in  
To your secret den  
We'll light a fire  
And find the sparkle in a stone

What keeps your light on  
Teach me the song that sings you home  
What keeps your dreams drawn  
Across your eyes when you're alone  
My friend I wanna feed ya  
The tangerine sunset  
What keeps your light on

Sun never stops burning  
Hearts never stop yearning  
Sun never stops burning  
Hearts never stop yearning

What keeps your light on  
Teach me the song that sings you home  
What keeps your dreams drawn  
Across your eyes when you're alone

What keeps your light on  
Teach me the song that sings you home  
What keeps your dreams drawn  
Across your eyes when you're alone  
My friend I wanna feed ya  
The tangerine sunset  
What keeps your light on

What keeps your light on  
What keeps your light on  
What keeps your light on  
What keeps your light on
