

Tides

Birdtalker

You can be heady and ready to fight
I can be head in the clouds
You can go winding your way through the night
Just sit here with me once in a while
If all there is is in between
Then I don't mind
Dancing like the water and the moon

You can be steady and mild
And I'll keep playing with fire
You are the cool when the flames get high
But baby, don't I glow in the light?
If all there is is in between
Then I don't mind
Dancing like the water and the moon

Oh we are on the right track
Chasing love to higher ground
Oh we are on the right track
Dancing like the water and the moon

I can be heady and ready to fight
You can be head in the clouds
I can stay in the glowing light
You can be steady and mild

We are on the right track
Chasing love to higher ground
Oh we are on the right track
Chasing love to higher ground
Oh we are on the right track
Dancing like the water and the moon
