

Paradise Calling

Birdy

Riding high
When I was your star, mmm
Lightning strikes
Right at the heart, mmm

Paradise calling
All I've ever wanted was
Something to believe in (Oh-oh)
Something to believe in (Our love)
Both eyes wide open
So high, still falling
If you could only feel (Oh-oh)
If you could only feel (Our love)

Our love

Light us up
Open the door, oh-oh-oh, oh-oh
We could find a way out the dark
This could be the spark
And you don't know the ways of the heart
This could be the start

Paradise calling
All I've ever wanted was
Something to believe in (Oh-oh)
Something to believe in (Our love)
Both eyes wide open
So high, still falling
If you could only feel (Oh-oh)
If you could only feel (Our love)

We could find a way out the dark
The dark
You don't know the ways of the heart
The heart
We could find a way out the dark
The dark
You don't know the ways of the heart
This could be the start

Paradise calling
All I've ever wanted was
Something to believe in (Oh-oh)
Something to believe in (Our love)
Both eyes wide open
So high, still falling
If you could only feel (Oh-oh)
If you could only feel (Our love)

Our love
Our love
Our love
