## **Shadow**

Woke up to the music of your heart Saying I, I Caught up in the wishing that it lasts Saying I, I

Only you ever make me scared 'Cause only you can take me there

So wherever you go, I'm your shadow Desert to ice flow, I will follow Wherever you go, I'm your shadow I'm your shadow

There beneath your body when it wakes Saying I, I Hiding under every step you take Saying I, I

Only you ever make me care 'Cause only you ever made me dare

So wherever you go, I'm your shadow Desert to ice flow, I will follow Wherever you go, I'm your shadow I'm your shadow I'm your shadow

I know, I know I know everywhere you move You stay, you go You change, I'm bound to you

So wherever you go, I'm your shadow Desert to ice flow, I will follow Wherever you go, I'm your shadow

So wherever you go, I'm your shadow Desert to ice flow, I will follow Wherever you go, I'm your shadow I'm your shadow
