

Hyper Focus

Birth of Joy

You will never know
What it's like
To be in my world
Graceful rockets glow
Beyond the stars
Never seen before
No I won't come down
Your world is grey
Leave me alone

Don't tell me what to do
Don't tell me how to walk
Don't tell me how to feel
Don't tell me where to look
Don't tell me how to talk
Don't tell me how to deal
Don't tell me how to love
Don't tell me what is real
This is my state of mind

I am hyperfocused
Keep your diagnosis
I am super focused
Keep your diagnosis

You are so slow
We're not alike
You disturb my flow
I am a playful comet so
Leave your pills
At the door
Yes I am a clown
To your dismay
I am the king of my zone
