

Let It Slide

Birth of Joy

You wish to believe
That everything is good
But you're down on your knees
Unable to move
It's time to get up
Arise from the dust
Now follow me
And learn how to trust

Loud and heavy

Free your mind
I'll be your guide
Let it slide

Beat the machine
Scramble up in parts
Take what you need
Gain what you have lost
When things are getting rough
Never back down
When will you see
It's time to move on
