

## Numb

## Birth of Joy

I followed you into the cave,  
I didn't mind if we got lost  
Now I can't see your face,  
It's way more dark than I thought  
Guide the way  
Put the light on now  
We're stuck in a maze  
That we can't escape from

I don't want to live in fear  
Okay, left behind to rot  
We are not alone in here,  
Something else is watching us  
Guide the way  
Put the light on now  
We're stuck in a maze  
That we can't escape from

This place is hunting us,  
It left us numb  
All these walls keep closing in  
No matter how fast we run  
This place is hunting us,  
It left us numb  
All these walls keep closing in  
No matter how fast we run  
We can't outrun  
Stay,  
stay,  
stay awake!  
Stay  
awake!

This place is hunting us,  
It left us numb  
All these walls keep closing in  
No matter how fast we run  
This place is hunting us,  
It left us numb  
All these walls keep closing in  
No matter how fast we run

This place is hunting us,  
It left us numb  
All these walls keep closing in  
No matter how fast we run  
This place is hunting us,  
It left us numb  
All these walls keep closing in  
No matter how fast we run  
We can't outrun
