

# superhuman

Bishop Briggs

If you could walk on the water  
If you could hopscotch on the trees  
If you could fly the world in an hour  
It would be no surprise to me

You don't need  
Nobody to save you  
There's always sun when the rain's through  
And you might not believe it but I do  
I just want you to see

You're superhuman  
Bulletproof as can be  
I know the truth is  
You can do anything

Gonna fight your share of battles  
In the eye of the storm

But you'll get through it  
Cause your superhuman

I was out in the deep end (I was out in the deep end)  
Wasn't even my own friend  
But I had to give my story a new end  
And had to keep reminding me

You're superhuman  
Bulletproof as can be  
I know the truth is  
You can do anything

Gonna fight your share of battles  
In the eye of the storm

But you'll get through it  
Cause your superhuman

You are  
Superhuman, you can do it  
You are  
Superhuman, you can do it

You are  
Superhuman, you can do it  
You are  
Superhuman, you can do it

You're superhuman  
Bulletproof as can be  
I know the truth is  
You can do anything

Gonna fight your share of battles  
In the eye of the storm

But you'll get through it

Cause you're superhuman

If only you could see yourself  
The way that I see  
You'll get through it

'Cause you're superhuman  
To me
