You re sitting next to me, you don t know what to say to me, you re afraid that I might just worship you, tie myself to you

You□re sitting next to me, you□re staring at the screen, you cannot see me, I□m not here They found the fountain of the endless love

Boy you hurt me, too much

Chorus: Take me on, on your own

You re sitting next to me, you re taking my hand, turning away from me, I can t wait Cuz every time you choose you choose the same

You \square re sitting next to me, you \square re so afraid you cannot please me, make me satisfied They found the fountain of the endless love

Chorus:

Take me on, on your own
