

## Sahara

### Biting Elbows

Early in the morning  
Sweet fumes in the breeze  
Window cracked open  
Driving past the factories  
Like the Sahara  
It's a desert out here  
In my mind  
Everything is clear

Honey, why don't you come round no more  
Honey, i lose if you're keeping score  
All I wanna do is leave this town  
I don't wanna hang around  
All I wanna do is leave this town  
I wanna see it burn down

Surely without warning  
I'll reach a release  
Nose cracked open  
Feeling weak in the knees  
Like the Atlantic  
It's an ocean out here  
In my eyes  
Salt from your tears

Honey, why don't you come round no more  
Honey, you win if you're keeping score  
All I wanna do is leave this town  
I don't wanna hang around  
All I wanna do is leave this town  
I wanna see it burn down

All that I do  
Well I don't do it for you  
I don't ever do  
Anything for you
