

# I Don't Know What I Did Last Night

Bizarre

Don't make me have to put your brains right up in a package  
My .357 make a nigga do backflips  
I can eat your guts and jump in a studio afterwards  
Cut 'em up with a knife then eatin' then I go back to work  
I'm a animal, a cannibal I live off a human meat  
And I chew brains like a cantaloupe  
I was walkin' down the avenue bloody like Lurch  
I run up in your church and let the heck I cut them bitches up after that I'  
m still in a hearse  
Put your knife in a neck of the reverend  
I'm stealing her purse  
And you know I love meat, well...  
Now I'm 'bout to have it with my nigga from D12  
Now they 'bout to die because of my f\*ckin' CD sells  
Cuttin' off the nuts and turnin' them niggas to females  
Then I f\*ck 'em in the ass with a machete I'm deadly  
Leave your intestines on the grass

I don't know what I did last night  
It's murdah, it's murdah, it's murdah

Evil thoughts, hear the sparks of neighborhood sicko

I don't know what I did last night  
It's murdah, it's murdah, it's murdah

Grown oddity, smoke sodomy, love it

I don't know what I did last night  
It's murdah, it's murdah, it's murdah

Hail Dark Lord Vader  
Sure hope I make it up to heaven  
I was seven when I was beheaded  
Nigga, now I'm headin' up to God  
He said it would be odd when pulls off my drawers  
Now my balls are all in God's jaw  
Jesus f\*cking me  
Holy shit the Holy Spirit's comin', he's pumping me  
Give me break, the Lord bust a nut in me  
Lucifer I'm used to ya, all you do is f\*ck and pee  
Dahmer throat, I'ma choke, the Satan starts suckin' me  
Havin' a threesome with God and Jesus  
And we love to suck each others dicks 'til we cum  
Take a journey inside, my mind's burnin'  
If I keep on flirtin', then I will get nut squirted in my eye  
Jesus took the Devil's pitchfork, what is this for?  
Let me stick it up his ass 'til it get sore  
I am the king of horrorcore  
You can get your angel wings burned  
Fallin' off like a sick bird  
Hail Dark Lord Vader

I don't know what I did last night  
It's murdah, it's murdah, it's murdah
