

Against You

Bizzle

They like, "What you rap about Christ for?" I don't know, what you rap about ice for? You see homie, the Lord is my life so that's like asking what I rap about life for. It's like the game got a quota, how many times you can mention the Lord jahova. You hit that point and they put you on the whole other side of the store and nobody sees your product. They put you on a whole other station and they all on line and you might get on the AM. But come on fam, who get on the radio and try to find music on the AM station, though? So the penses is, you more likely to hear a song about drugs than the Lord on accident. It's like they tryin to keep God from you. But no matter what the world say, God loves you

Oh, Lord what you do to them so do. You even gave your life so that we might find salvation. I wonder what they got against you that they reject your love, and all that you've done for those. I know it must hurt you deeply, still I, I wonder what they got against you

Lord, I don't understand. Maybe they just cower at the power in your hands. And they would do anything for the power in your hands. And to let em down, that would a coward of a man. And it was all good just a week ago. But now they takin that same Adam and Eve approach. See they was cool bein underneath God, til the devil came. Like eff that, you can be God. And that's the tip baby on a date. And why they took you out of school's kind of hard to say. But when they feed the youth thought is foolish evolution talkin they can't prove is hard on they fate. The other day a couple teachers of the school were persecuted for sayin a prayer over the fools. But the day that become a crime to do, I'ma be a criminal. Tell em do what they gotta do

Oh, Lord what you do to them so do. You even gave your life so that we might find salvation. I wonder what they got against you that they reject your love, and all that you've done for those. I know it must hurt you deeply, still I, I wonder what they got against you

I think I know what it is father. I finally figured out what it is bout ya. I figured they know that if you exist there's a lot of sin they love doin they gotta quit father. And the only ones callin it a fairy tale are the ones for which the story does n't end as well. Maybe they like it better if they mention hell, like a thief if the law never said he went to jail. I was seekin the truth, found it and I submit already. They just want the truth that agrees with how they feel already. So if they like the sin and they tired of fightin it, they just find another god that don't mind it then. We got so used to democracy, we think we have the right to vote who we want God to be. God will be God with or without you, honestly. Your father is still your father even if you decide to leave

Oh, Lord what you do to them so do. You even gave your life so

that we might find salvation. I wonder what they got against you that they reject your love, and all that you've done for those. I know it must hurt you deeply, still I, I wonder what they got against you
