

All Over Again

Bizzle

Your my woman girl I love ya
I just want you to know, yea
Need I remind you
They say there's no marriage in heaven
But when I get there I'm find ya, I'll try
Hit that knee and put that ring upon your finger
I did it, to my best friend, your my best friend
And I'd do it all over again Do it all over again
I'd do it all over again

What can I say, fifteen years we done come a long way
You made winter nights feel like summer time days
If I got a rib missing you the one that God made
I'm show of it, I show love it
How you rolled when they was stone clutching with no budget
And when the road toughened you rolled with the punches
Stayed ready to take the world on with your husband
And though it ain't always sweet together will always be
And you with me through the storm and the thunder
Like OKC, even when the team suffer like it's no KD

I'm no longer interested in life without you
I want you by my side, and if I left anything out about you
I apologize, but you know that

Your my woman girl I love ya
I just want you to know, yea
Need I remind you
They say there's no marriage in heaven
But when I get there I'm find ya, I'll try
Hit that knee and put that ring upon your finger
I did it, to my best friend, your my best friend
And I'd do it all over again Do it all over again
I'd do it all over again

You the best mother I know
Seeing you helps me appreciate my own
I never really never know how much it was on a women
But I'm sure that I couldn't so I honor you a lot more
Yeah I honor my queen and she don't ever try to play king
She know that God with me she trust me and follow my lead
And I serve and protect her like I'm the police
I had nothing you was on the bottom like me
You helped me to follow my dreams
So from here on you can put your name on every dollar I see
We are one ain't no lines dividing my team

Forever grateful for the day that I found you baby
I want you by my side, and if I left anything out about you
I apologize, but you know that

Your my woman girl I love ya
I just want you to know, yea
Need I remind you
They say there's no marriage in heaven
But when I get there I'm find ya, I'll try
Hit that knee and put that ring upon your finger

I did it, to my best friend, your my best friend
And I'd do it all over again Do it all over again
I'd do it all over again
