We them believers ,east side, west side boy
we all around, no side, south side world wide bound.
We could of been veneto? but we pray for your town
and every where that we go you know we hold it down.
We just a bunch of sinners out here tryna follow Christ,
they love to see us fall mane hate to see us fly and
we ain't perfect either we try to get it right and
we don't only read up we boutta live dat? life.
They play us in the media with stereo types but even
when they hate us we love them on site.
They wishing death upon us just for tryna bring em light
but that's alright!

We them believers, we don't believers in calling right wrong an
d wrong right,
we them believers they say the problem with us in the dark is o
ur light.
We them believers the only way we know is.. to go hard on site.

We them believers we roll with Jesus cause he gave it all; for
our... life.

We them believers

They know we keep it cool so they love to play around
push us to the edge then they say we wild'n out,
but catch us on the wrong day and one of us will clown
then it will be a long day it's going down..
we don't want no problems; we just living our life
its hard enough with out a hater tryna cause strife.
I'm tripping on my own just tryna walk right
if I put it in a song we will be here all night. (
) its not a joke I know where I'm headed when its time to go
but until then I get it popping doe putting Yahweh over dollars
