

## Down

Bizzle

Why you want to bring me down  
Why you trying to stress me out  
Know you want to see me drown  
You can hit me but not knock me out

Cause I'm going to keep my head up  
Keep my head up, keep my head up  
My head up, keep my head up  
Keep my head up, keep my head up  
Keep my head up, my head up  
Keep my head up

Its hard to keep my head up  
When these thoughts just weigh me down  
The enemy trying to take me out  
First people hooray me then they betray me  
Some even hate me now  
Father what am I to do?  
Should I not have told the truth?  
Yet so many left you too  
So I guess its overdue  
But as you like me, I love it  
I needed a new life, and you done it  
I am not through fighting, lets run it  
I'm feeling like a new Tyson, who want it  
As long as my God with me  
He can finish anything the Devil start with me  
So I keep my head up until its all for me  
But at times like this it be hard for me

Why you want to bring me down  
Why you trying to stress me out  
Know you want to see me drown  
You can hit me but not knock me out

Cause I'm going to keep my head up  
Keep my head up, keep my head up  
My head up, keep my head up  
Keep my head up, keep my head up  
Keep my head up, my head up  
Keep my head up

Lord I know you been watching  
Over me since I gotten here  
I know the people outside think my whole life  
Sweet but I been through a lot this year  
First anxiety then come stressing  
Insecurity doubt worry and depression  
I thought they were your folk they said it  
I was naïve I learned my lesson  
Thought that if I just kept it, true  
They would love me seeing I love, you  
It's like they nitpicking all my moves  
Trying to catch me slipping in all I do  
Lately I been thinking about leaving  
Making this here my last season  
But I can't let these haters win

So I keep pushing for those who need me

Why you want to bring me down  
Why you trying to stress me out  
Know you want to see me drown  
You can hit me but not knock me out

Cause I'm going to keep my head up  
Keep my head up, keep my head up  
My head up, keep my head up  
Keep my head up, keep my head up  
Keep my head up, my head up  
Keep my head up
