

Dream On

Bizzle

Somebody out there
Got a dream
Somebody out there
Got a dream, yeah (Know you got one, know you got one, everybody got one)
When you know
That you got a dream, yeah, yo
Can't let nobody tell you
What you can or can't do, uh-uh, no
([?] in the building)
Uh-uh, uh-uh, uh-uh, uh (Let's have some with this one)

I've been to the mountaintop
I've been to the valley, low (Been to the valley, low)
I've got myself a dream
And I just can't let it go (Just can't let it go, woo)
I've been to the mountaintop
I've been to the valley, low (Been to the valley, low)
I've got myself a dream
And I just can't let it go

With every breath that I breathe
With every thing that I'll see
And with every word that I'll speak (Yeah)
They'll hear You whenever they hear me
As I'm sitting here, thinking on my life
All these fans, all this ice
All this favor, gotta be a price
If music gon' raise 'em, I'ma raise 'em right, look, you see
Most of y'all think money think money is the remedy
When you don't have none, I know seem to be
The finer things in life can get you fidgety
But hard times get you ready for where you finna be
Have faith, don't listen to what people say
'Cause they don't wanna see you make it anyway
Stay strong, 'specially when times get rough
If people don't laugh at your dream, it ain't big enough

Dream on (Woo, I know that you're listening)
Dream on (Stay locked in position and get your)
Dream on (Stay true to it)
(It's a really hard thing but somebody gotta do it, get your)
Dream on (I know you can get it, woo)
Dream on (As long as you believe it, get your)
Dream on (When haters talk, don't listen)
(Times tick, it's not wishing, time to get down to business, woo)

Lord, the things that I've had (Had)
The cars, jewelry and cash (Cash)
See, the fast money leave fast (Yeah)
I'll take it slow 'cause they're kinda last (Uh-huh)
As I sit here, thinking of my life
All my wrongs, all my rights
All this favor, gotta be a price
If music gon' raise 'em, I'ma raise 'em right, look, you see
Most y'all can't wait for what's 'fore you
You'd rather cut corners 'stead of owe due
Most times, that's the worst thing you could ever do

Stand strong and learn what you need to
I know you don't like to be a loner, but
What don't kill you make you stronger
And some folks don't believe, prove 'em wrong, well
If people don't laugh at your dream, it ain't big enough

Dream on (Woo, I know that you're listening)
Dream on (Stay locked in position and get your)
Dream on (Stay true to it)
(It's a really hard thing but somebody gotta do it, get your)
Dream on (I know you can get it, woo)
Dream on (As long as you believe it, get your, hallelujah)
Dream on (When haters talk, don't listen, yeah)
(Times tick, it's not wishing, time to get down to business, Bizzle)

Dream big, even if you're small right now
Tell the dream killers you don't wanna talk right now
Got hot for a while, but it's all right now
Gotta huff and puff and blow the walls right down (Pssh)
Don't aim for the block, aim for the stars (Block, stars)
Neptune, Saturn, Uranus and Mars (Yeah)
So even if you fall, you can land in the cloud
Better aim for the mansion and land in the house (Ayy)
Sky ain't the limit no more, look past that (Past that)
See the finish line, and then lap that (Finish line, lap that)
Be the man where you used to get laughed at
God own it, who are they say that you can't have that?
Even when you fall, don't give up, get up
Pick up where you left, confess you a winner
Keep shooting high 'til you tear the whole ceiling up
People don't laugh at your dream, it ain't big enough

Dream on (Woo, I know that you're listening)
Dream on (Stay locked in position and get your)
Dream on (Stay true to it)
(It's a really hard thing but somebody gotta do it, get your)
Dream on (I know you can get it, woo)
Dream on (As long as you believe it, get your)
Dream on (When haters talk, don't listen)
(Times tick, it's not wishing, time to get down to business)
