Bizzle

Your boss should of told you I was coming nigga  
Bizzle L.A.V.Y.S.S YES Lets Go!

Now tell me am I the only nigga that's sick of Jay?  
Sick of this freakin lame, Ain't it a bucket you finna kick any minute or da  
y  
Nigga jsut claim what you is, I'm hearing that you a Mason!  
So explain the pyramids that you set on the stage  
Is it the same as what you lift when you bang the rock?  
Nigga you rap, How is it that you can page Barack?  
Or is it that it's something way deeper than we can see?  
Dissing JESUS seeing how naive people can be  
Ain't it strange he repeatedly saying he God  
Then he got you calling him hova  
The name of GOD JEHOVA  
I studied you nigga, cause I was a fan  
But I'm a fan of the LORD first So I would be damned  
If I'ma let you get over,twist the fans souls up  
Have em chant hova for satans soldier  
Hova hova is what you got em yelling  
But they looking to the stage 'stead of looking up to Heaven  
I know about you and the law thelema  
Know about Crowley and the cult you believe in  
Homie i'm a Christian to the core  
If you listen he dissing like every christian but Dior  
So nigga we finna war  
He on top of the colomn, and I'm at the bottom  
He richer than me in dollars, I'm rich in spirit I got em  
I'm David he Goliath The LORD is my power So i dont need not a dollar to sni  
pe him outta the tower  
Is it just in my mind? Or is it just that your blind to the rockawear design  
s new symbolism's and signs?  
And if you listen you see how much he be dissing GOD  
He ain't satan he just a slave in his assembly line  
Conspiracy? Nah go ahead and look it up I Ain't never been a chef for me to  
ever cook it up  
I just hope people don't brush this off,disregard,and cut this off, Now if y

"On to the next one" far from the best one  
All black hoodie white boy black lipstick  
Voodoo paint with skulls and blood dripping  
That ain't even Hip Hop nigga that's gothic  
All black everything guess he wasn't kidding  
And what's with all the black crows? Oh yea ya girls a black bird  
Satanic symbols flashing when you lack words

Two flashes of the baphomet  
One flash of CHRIST on the cross with bullets on the side mocking him  
I'm lost again what it got to do with the song?  
And if it doesn't which it doesn't then tell me what are you marketing  
All black album how come 99 problems is song number 9  
So the outcome upside down is three 6's  
Followed by a song called lucifer How did we miss it?  
What about the Mrs.? Used to be a Christian  
Now she rock baphomet heads in her pictures  
Nah that's sasha that's someone different  
But what about Rihanna? I heard she with the business  
I beet you all do songs with Lady Gaga  
But as soon as I get in the game it's baby bye bye!  
I never call Jay Z hova like he My GOD  
There's only one of those the Father I call ABBA  
So watch close if you cherish the BIBLE  
Bury your rifles carry your BIBLE  
Cause the war is on SEEK THE TRUTH it's there in your BIBLE  
Quit serving these American idols  
If you with me then say

My nigga you got some explaining to do, My nigga you got some explaining to do  
And I'm listening, cause all the evidence is saying it's true  
So homie you got some explaining to do and I'm listening

I hope your ready My LORD, My LORD is coming for you  
My nigga you got some explaining to do  
Homie you go'n have some explaining to do  
And we listening
