

Feel Good

Bizzle

It's a whole lot on my mind
And shorty on my line saying
She can make me feel good
And see I been going through it
And she say she love my music
And It kind of make me feel good
Baby I can make you feel good
Don't you want to feel good
[?] a little, [?] a little
Live a little It feels good
I can make you, feel good

I'm just writing off in my zone
Look down and see a few missed calls
But who keeps calling unknown
They call again when I pick up
It's some chick up on my phone
I'm like who this, she look ooh Bizz
Has it really been that long?
Uh yeah it's been that long
Can't lie a part of me's is like whoa
Other part is like baby girl is you crazy calling my phone
I got a wife now and new life now
And it's 3 o'clock in the morning she's saying
"I was just wondering where things with us went wrong?"
Now it's five o'clock in the morning, And I know
We ain't got no reason to be up on this phone
This late in the evening know we doing wrong
Now she talking about meeting I normally wouldn't think twice
But me a wifey beefing, and now she saying
All the things that we can do If I go to her home
And my curiosity is keeping me up on this phone
Man I got to quick, Lord I almost slipped
Risking a wife and kids you gave me for some chick
Now that's crazy I trip

It's a whole lot on my mind
And shorty on my line saying
She can make me feel good
And see I been going through it
And she say she love my music
And It kind of make me feel good
Baby I can make you feel good
Don't you want to feel good
[?] a little, [?] a little
Live a little It feels good
I can make you, feel good

New level, new devils It's like when every do better
Temptation turn up a few levels
And homie the devil will use whoever
Like two in the morning when the mood settles
I get to digging a ditch with a huge shovel
Cause I wonder why when it's this late
I don't really reply to the dudes ever
And It start with, hey could you pray for me?
I love your music it relates to me

That My Confession it was my confession
This temptation is breaking me
I do pray that I give advice
But I cut it short cause I know me
And if you and I deal with lust issues
Then how close can we both be? Now she feel like
I was there for her in a rough time and she owes me
We chat more and we crack jokes but
I'm hesitant when we both speak
She hella cool and cute too so I stop again but she on me
And she wonder why we can't be friends
But my wife used to be the homie
And lately though I been stressed out
I tweet that and don't think of it
Next week I'll be In her hometown
She hit me up and say she coming
I'm telling shorty don't go
Lord I ain't trying to do wrong
That's why when I'm on the road
I bring my wife to all of my shows, it ain't no joke

It's a whole lot on my mind
And shorty on my line saying
She can make me feel good
And see I been going through it
And she say she love my music
And It kind of make me feel good
Baby I can make you feel good
Don't you want to feel good
[?] a little, [?] a little
Live a little It feels good
I can make you, feel good
