

Lead Me

Bizzle

Wake up lay feet to the pavement running at a hundred ain't read no praying
Needs of my seed got me so anxious peeps telling me how I need more patience
And I know it
Lord I don't wanna go it on my own now I know how close the end zone is
Knowing I can flow it got me feeling more heroic
Now he telling me to run it but I sho wanna throw it
Knowing that it's your play calling
That got me in the position to take all this
How dare I break off and stray
As long as I been training for this game I wish I would throw the ball away
I'm trying to be a better follower
Cause true faith don't keep calling audible
And plus I tried on my own
And that's what had me crying at His thrown in the first place

Two steps forward two steps back
It's like I'm running place staying where I'm at
It's the same old thing trying hold me back
Lord I need you to why don't you just
Lead me I need you to (Lord I need you to) Lead Me
I need you

Now I'm up in this predicament due to a whole lot of not listening
Trying to get it in before I got it right
Like Ima holler at you father but just not tonight
Trying to add him in the plans I already made
Instead of asking Him for the plans that Heaven laid
But this a game I already played
If I seek Him first I can never be lead astray
Alright
New day do pray before I put the brush to the toothpaste touché
Faith fresh like a new fade get up in the Word then grind is my new thing
Put Him back in the top spot everything falling into place now
Put my feet to the streets like hop scotch sow seeds and just wait till it rains down

Two steps forward two steps back
It's like I'm running place staying where I'm at
It's the same old thing trying hold me back
Lord I need you to why don't you just
Lead me I need you to (Lord I need you to) Lead Me
I need you

My next prayer depends on you
My next heartbeat is on you
Less of me more of you
Lord please lead me in all I do (All I Do)

Two steps forward two steps back
It's like I'm running place staying where I'm at
It's the same old thing trying hold me back
Lord I need you to why don't you just
Lead me I need you to (Lord I need you to) Lead Me
I need you
