

# Nobody

Bizzle

Ayy, ayy  
If you ain't got nobody else, you've got Jesus  
C-Life on the beat  
You know?  
Yeah

It's a vibe (Vibe)  
How I feel inside (Feel inside)  
It's a high (High)  
Got me in the sky like  
I don't need nobody but you  
I don't need nobody but you  
I don't need nobody but you (Woo)  
Whippin' on the freeway (Yee)  
Lit like it's my b-day (Aww)  
G-O-D my DJ (Hey)  
He just be on replay  
I don't need nobody but you  
I don't need nobody but you  
I don't need nobody but you (Yeah)

I been up (Up), and I been down (Down)  
The same  
You picked me up (Up), then wiped me down (Down)  
No stains  
Not gon' lie tho  
I was not okay  
Hit the ground (Ground), you held me down (Down) anyway  
I can't help myself  
Look what you done for me  
I want no-one else  
Lord you're stuck wit' me  
If I were to leave  
Where would I go? I go  
Jesus take the lead  
Get my blindfold (Lego)

It's a vibe (Vibe)  
How I feel inside (Feel inside)  
It's a high (High)  
Got me in the sky like  
I don't need nobody but you  
I don't need nobody but you  
I don't need nobody but you (Woo)  
Whippin' on the freeway (Yee)  
Lit like it's my b-day (Aww)  
G-O-D my DJ (Hey)  
He just be on replay  
I don't need nobody but you  
I don't need nobody but you  
I don't need nobody but you

I been high, I been low  
Look back, I don't know what I was on  
I-I-I coulda, shoulda, woulda lost my mind a long time ago  
You came right along, picked me up  
And said I could ride along

This where I belong  
Then you signed me on to GOM and told me to write these songs  
So I keep goin'  
I have to tell everyone what you done for me  
I have to tell everyone what you done for me  
You took my shame in exchange you said, I am free  
You took my shame in exchange you said, I am free  
I give you my life  
But you gave me life first (First)  
Since you gave me light  
I guess this is light work (Work)  
If I were to leave  
Where would I go?  
Jesus take the lead  
Get my blindfold (Woo)

It's a vibe (Vibe)  
How I feel inside (Feel inside)  
It's a high (High)  
Got me in the sky like  
I don't need nobody but you  
I don't need nobody but you  
I don't need nobody but you (Woo)  
Whippin' on the freeway (Yee)  
Lit like it's my b-day (Aww)  
G-O-D my DJ (Hey)  
He just be on replay  
I don't need nobody but you  
I don't need nobody but you  
I don't need nobody but you
